Warehousing & Parts

1. Plan out the warehouse(s)
   - How many warehouses?
   - How many rolling warehouses?

2. Plan out the locations
   - What type of locations (inside, outside, rows, aisles, etc.)?
   - What will the Location IDs will look like?
   - How Many/warehouse?

3. Devise a Bar Coding Schema
   - Does it cover all warehouse types?
   - Does it cover all parts?
   - Will they work together without difficulty?
