TUNE-UP

Lucity On-Site

Audit & Recommendation

SHARPENyour**TOOLS**

 **lucity**TM**act16**

WHAT IT IS

- A packaged professional service designed to achieve maximum impact in accelerating and expanding your use of Lucity at a minimal cost. Whether you are an advanced user or one just starting out, this tune-up will identify areas for improvement, suggestions for system configuration & workflow improvements for your implementation.

SHARPENyour**TOOLS**

 **lucity**TM**act16**

WHAT IT MIGHT INCLUDE

- **Review and Optimization of Lucity**
- **Assist Deployment & Configuration of Lucity Web Forms and Custom Dashboards**
 - Review web deployment & offer configuration changes & suggestions. Where immediate changes or improvements can be made, Lucity can implement these on-site.
- **ConfigureGIS into Workflows**
 - Make the most of your maps.
- **Improve Reporting and Information Distribution**
 - Review your reporting requirements & suggest changes and ways to integrate critical data elements into your workflow process.
- **Review IT Environment**
 - Review existing IT environment & compare to Lucity hardware standards.
